Austin, TX

The Texas Cardiac Arrhythmia Institute at St. David's Medical Center (TCAI) is one of the world's preeminent centers dedicated to the latest treatment advances for correcting arrhythmias. The center is led by Executive Medical Director Dr. Andrea Natale. Natale is at the forefront of advancing treatment for A Fib, leading numerous clinical trials and participating in the development of new technologies and procedures.

## About Austin, TX

You'll want to extend your stay to enjoy Austin, the live music capitol of the world.® Our great city is home to more than 120 unique downtown restaurants, from down-home to four-star, and nearly 200 live music venues. And with 32 public golf courses, Austin was named "The best golf City in America." For more information about what Austin has to offer, and planning your trip to Austin, visit the Austin Convention and visitor's bureau at [www.austintexas.org](http://www.austintexas.org).
